## EXPERIENCE

### **Accessibility Engineer — AFB, Mattawan, MI**

November 2019 - Present

At the American Foundation for the Blind, I test clients' digital products against WCAG 2.1 guidelines and provide written reports of accessibility findings, including code-level solutions. I also train clients' development teams on accessibility best practices.

### **Web Accessibility Manager — ITHAKA, Ann Arbor, MI**

April 2019 - November 2019

At ITHAKA I tested web products against WCAG 2.1 guidelines, created web accessibility processes and documentation, and trained staff members on accessibility best practices. I also committed code-level solutions to many accessibility issues.

### **Web Developer I — Jackson, Lansing, MI**

May 2017 - April 2019

At Jackson I tested web products against WCAG 2.1 guidelines, created accessibility process documentation, and trained team members on accessibility best practices. I also maintained several internal and external websites and applications.

## EDUCATION

### **B.A. in Professional Writing — Michigan State University, East Lansing, MI**

August 2014 - May 2018

Professional Writing teaches contextual communication through design, writing, and web development. I chose technical writing and user experience as my area of focus for my degree.
